

AGENDA: June 14, 2011

5.5

CATEGORY: Public Hearing

DEPT.: Public Works

TITLE: Adopt 2010 Urban Water Management Plan (UWMP)

RECOMMENDATION

Adopt A RESOLUTION ADOPTING THE CITY OF MOUNTAIN VIEW 2010 URBAN WATER MANAGEMENT PLAN (Attachment 2 to the staff report), to be read in title only, further reading waived.

FISCAL IMPACT

There is no fiscal impact from adopting the 2010 Urban Water Management Plan.

BACKGROUND AND ANALYSIS

State law requires that urban water suppliers providing water to more than 3,000 customers or supplying more than 3,000 acre-feet of water per year periodically update their Urban Water Management Plan (UWMP). The purpose of the UWMP is to ensure water agencies conduct long-term resource planning to provide adequate water supply to meet existing and future water demands. The City's update must be completed by July 1, 2011.

Mountain View's 2010 UWMP provides an analysis of the City's available water supply and compares it to current, historical and projected water demand over the next 25 years. The City's 2010 UWMP also includes details about the City's water supply reliability during drought years, water conservation program, recycled water program and actions to be taken in the event of a water shortage or a catastrophic supply interruption. The draft 2010 UWMP is included as Attachment 1.

Based on staff analysis of the data collected for the UWMP, Mountain View is expected to be able to meet the needs of existing and future water customers through the year 2035. Demand will be met using a combination of potable water supply sources (San Francisco Public Utilities Commission/Hetch-Hetchy, Santa Clara Valley Water District and City wells), recycled water and water conservation. In years with below-normal rainfall, water shortage contingency measures will be needed to reduce the City's water demand to meet anticipated supply reductions. Information provided by Mountain View's wholesale suppliers indicate that the City could experience a potable supply reduction of up to 14 percent during a single drought year, and up to 24 percent during a drought lasting five consecutive years. These reductions are comparable with what is expected by neighboring water agencies.

AGENDA: June 14, 2011

PAGE: 2

Public participation is required as part of the UWMP update process, and staff performed outreach to neighboring land use agencies, water agencies, community groups and environmental groups. Notices were also placed in local newspapers informing the public of the availability of the draft 2010 UWMP and the timing of the public hearing. Copies of the proposed 2010 UWMP were made available to the public on the City's web site, at the Public Works Department and at the Mountain View Library two weeks prior to this hearing.

Following the public hearing, the City Council must adopt a resolution approving the draft 2010 UWMP (Attachment 2). Following adoption of the 2010 UWMP, staff must submit the plan to the California Department of Water Resources, the State Library and the County of Santa Clara by August 1, 2011. The adopted 2010 UWMP will be made available to the public on the City's web site.

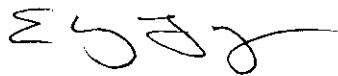

ALTERNATIVES

If the City Council does not adopt the 2010 UWMP, then the City of Mountain View will be out of compliance with State law and will not be eligible to receive water funding or drought assistance from the State until the UWMP is completed.

PUBLIC NOTICING

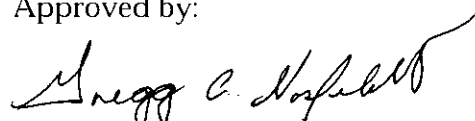

Notice of this public hearing was published in the *San Jose Post Record* and *Mountain View Voice* and mailed to interested stakeholders. The meeting agenda was advertised on Channel 26 and the agenda and staff report were posted on the City's web site at www.mountainview.gov.

Prepared by:

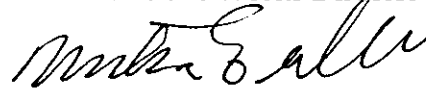

Elizabeth Flegel
Water Conservation Coordinator

Approved by:

Gregg A. Hosfeldt
Assistant Public Works Director

Michael A. Fuller
Public Works Director

Melissa Stevenson Dile
Interim City Manager

 2. Resolution to Adopt 2010 Urban Water Management Plan

Counter copies of the Draft 2010 Urban Water Management Plan (UWMP) are available for review in the Public Works Department and the City Clerk's Office at City Hall and the Mountain View Public Library. The draft UWMP is also available online at:

www.mountainview.gov/UWMP

Electronic copies of the UWMP may be obtained on compact disc, by contacting Elizabeth Flegel in the Public Services Division at (650) 903-6774.

CITY OF MOUNTAIN VIEW
RESOLUTION NO.
SERIES 2011

A RESOLUTION ADOPTING THE
CITY OF MOUNTAIN VIEW 2010 URBAN WATER MANAGEMENT PLAN

WHEREAS, the California Urban Water Management Planning Act requires that urban water suppliers providing water to more than 3,000 customers or supplying more than 3,000 acre-feet of water per year prepare an Urban Water Management Plan; and

WHEREAS, the City is an urban water supplier serving over 17,000 water customers and supplying over 10,000 acre-feet of water annually; and

WHEREAS, the City's last Urban Water Management Plan was prepared in 2005; and

WHEREAS, an updated Urban Water Management Plan must be adopted by the City Council by July 1, 2011 and filed with the California Department of Water Resources within 30 days of adoption; and

WHEREAS, the City has prepared and circulated a draft 2010 Urban Water Management Plan for public review and properly noticed a public hearing regarding said Plan held by the City Council on June 14, 2011; and

WHEREAS, the Mountain View City Council considered the 2010 Urban Water Management Plan, staff report and all public testimony on June 14, 2011;

NOW, THEREFORE, BE IT RESOLVED that the City of Mountain View:

1. Adopts the Mountain View 2010 Urban Water Management Plan.
2. Authorizes the Public Works Director or his designee to file the 2010 Urban Water Management Plan with the California Department of Water Resources, the California State Library and the County of Santa Clara within 30 days of adoption as described in Section 10644(a) of the California Water Code.
3. Authorizes the Public Works Director to implement the 2010 Urban Water Management Plan in accordance with State law.
